

SEND Information Report

Updated: July 2025

Review due: July 2026

SENCO: Mrs N. Roberts

SEND Governor: Mrs F Small

Contact: 01652 632455

Dedicated SEND time: 3 hours per week

Local Offer Contribution: <http://www.northlincslocaloffer.com/>

At Castledyke Primary School we aim to offer excellence and choice to all our children, whatever their ability or needs. We have high expectations of all our children. We aim to achieve this through the removal of barriers to learning and participation. We want **ALL** of our children to feel that they are a valued part of our school community.

Whole School Approach:

Our school provides a broad and balanced curriculum for all children. The National Curriculum is our starting point for planning that meets the specific needs of individuals and groups of children. When planning, teachers set suitable learning challenges and respond to children's diverse learning needs. Some children have barriers to learning that mean they have special needs and require particular action by the school. These requirements are likely to arise as a consequence of a child having special educational needs. Teachers take account of these requirements and make provision, where necessary, to support individuals or groups of children and thus enable them to participate effectively in curriculum and assessment activities. Such children may need additional or different help from that given to other children of the same age. Children may have special educational needs either throughout or at any time during their school career.

Underpinning ALL our provision in school is the **graduated approach** cycle of:

All teachers are responsible for every child in their care, including those with special educational needs. (**Reference:** Riverview SEND Policy **Autumn 2025**)

As a school, we recognise the importance of early identification and assessment of children with SEND. We aim to ensure that all children's learning and behaviour difficulties are identified and assessed, and the curriculum is planned to meet their needs.

The responsibility of day to day learning lies with the Class teacher. If a child's progress is limited, and a barrier to learning is preventing the child from making progress, the child's Class teacher will adapt the learning where appropriate and discuss any concerns with the parent/carers. At this point, targets and additional support may be put in place. This will be monitored very closely by the Class teacher in discussion with the child, the child's

parents/carers, the TA and also the school's Special Needs Coordinator where necessary. In consultation with the parent/carer, it may be decided that the child needs to be placed on the Special Needs Register and additional support put into place.

ASSESS:	Initial concerns regarding a child needing extra support will come from the parents/carers and the class teacher. Following these concerns the child's needs will be assessed and closely monitored so that the school can work collaboratively with the child's parents/carers and other professionals to ensure that support is given whenever needed. This will ensure the child reaches their full potential both academically and socially. Class teachers will make assessments on all children and carefully track progress. If any gaps in learning appear, a child faces barriers to their learning or if they are making very little or no progress additional support will be put in place to support this.
As a school, we use toolkits provided by specialist services (e.g. Boxall Profile, ASET checklist) to help both the class teacher and parents support the child's needs. Therefore, we encourage both parents/carers and the class teacher to complete the documentation to establish potential barriers to learning. From here, appropriate strategies are selected which enable the teacher and parents/carers to work together to improve outcomes. This collaboration aids success. SENCO	
PLAN:	In partnership with the child, parents/carers and any other professionals targets and support will be identified focusing on the outcomes for the individual child. This planning process will also identify how the outcomes are to be achieved. The SENCO, the child's class teacher and the parents/carers, will decide on the action needed to help with the child to progress in the light of their earlier assessment. This may include: • Different learning materials or special equipment. • Some group or individual support. • Extra adult time to devise the nature of the planned interventions and to monitor their effectiveness. • Staff development and training to introduce more effective strategies. • Access to LA support services for one off or occasional advice on strategies or equipment e.g. planning and Review Meetings with Educational Psychologist and/or appropriate Support Team member. Each SEND pupil's intervention is tracked on a Provision Map, which is updated termly and is mirrored by strategies in the classroom.
During Spring 2024 Teachers took part in CPD to deepen their knowledge of SMART targets. This has ensured that Teachers are consistent with the outcomes they are setting for children.	
All teaching staff complete termly Provision maps, outlining the provision which they are providing, which is in line with our Graduated Approach. Staff review and evaluate each intervention termly to show the impact it has had. Summer 2023.	
During Spring 2025, all Teachers accessed IEP coaching which was provided by the LA SEND team and the SENDCo, this allowed Teachers to access coaching to support in writing SMART IEP targets as well as matching these carefully to the area of SEND need.	
DO:	Within the classroom, the child is supported with targeted activities which are coordinated by the Class teacher and carried out by the Teaching Assistants, Early Years Practitioners, other teachers or professionals.

	The outcome of this will be closely monitored. These activities will also be delivered over a set period of time, tracked and then adapted or altered to ensure the impact is maximised.
The interventions and additional support is delivered by both the class Teacher and Teaching Assistant. It is important that we all work with individual children. SENCO	
REVIEW:	All outcomes will be reviewed twice yearly. The time scale will depend on the individual child and may involve more frequent reviews. This ensures that the additional support remains focussed and specific to address the identified barrier to learning. This is completed by the Class teacher and the SEND Coordinator in discussion with the child and their parents/carers and is then used to feed into the next cycle of support.
I am really pleased with all the extra support that my son is receiving and I can see that he is flourishing. Parent of Year 2 child	

Having consulted with children, young people and their parents/carers, all our additional provision (internal or external) is based on an agreed outcomes approach.

SEN Needs:

The SEND Code of Practice 2014 defines a child as having a special educational need if they have "a significantly greater difficulty in learning than the majority of others of the same age" or, "has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream school."

Children and young people's SEN are generally thought of in the following four broad areas of need and support:

1. Communication and interaction

We have established a strong professional relationship with the Speech and Language Therapy team. Through partnership working this enables us to ensure all children are receiving the best support through individual therapy, additional classroom support and also learn in communication friendly spaces. Classroom practice across the school has a heavy focus on developing language and also social communication. Within all classrooms children have access to visual timetables as well as Now and Next boards for individual children .

2. Cognition and learning

All activities are planned and tailored to suit the needs of the individual ensuring that we are moving their learning forwards in small achievable steps whilst providing challenge and maintaining high expectations. Children recognised as having SEND are provided with additional in class support, when necessary, ensuring they reach their full potential whilst maintaining their independence. This may be provided through resources, a personalised curriculum, and additional support from the class teacher and Teaching Assistant or Early Years Practitioner. We ensure that the vast majority of this takes place within the child's usual classroom environment. This means that they are learning alongside their peers, can use classroom resources to support them and then the children find it easier to transfer these newly developed skills into other areas of the curriculum as they are not being developed in isolation of the classroom. We also provide guidance to parents/carers in ways that they can help at home.

3. Social, emotional and mental health

The social wellbeing of ALL of our children and their families is extremely important to us. This year we have expanded our inclusion team to ensure that both families and their children are

supported in the most effective way. We provide children with lunchtime and after school activities and also space to talk when needed. Our children come first. We always make appropriate and reasonable adjustments to support all children.

4. Sensory and/or physical needs

We aim to ensure that all children can access the school environment fully and we strive for the inclusion of all within the capabilities of our school building.

Provision or action that is additional to or different from that available to all will be recorded in an Individual Education Plan (IEP) and/or Individual Behaviour Plan (IBP). This will be produced collaboratively between the class teacher, SENCO, the pupil, parents and carers. It may also involve consultation and advice from external agencies. The support plan will be reviewed and amended as necessary. (**Reference: SEND Policy Summer 2025**)

As of *July 2025*, we have **49** pupils (**23%** of the school population) on the SEND register.

13 children have an Education, Health and Care Plan (EHCP)
36 children receive support for their Special Educational Need

We have internal processes for monitoring quality of provision and assessment of need. These include:

- Guidance from the SENCO on identifying children with SEND through a rigorous Graduated Approach that includes an 'Initial Concern' cycle so that children can be monitored closely to assess their needs before a decision is made about whether they have a specific barrier to learning or a special educational need.
- Lesson observations – to ensure high quality teaching for all
- Regular review of individual learning plans
- Pupil progress meetings to discuss all children
- Termly reviews of EHCP in school, and an official annual review
- Access to an extensive range of assessment tools including British Picture Vocabulary Scale (BPVS), GL Assessment Dyslexia Screener, Autism Spectrum Education team Toolkit, Speech and Language Therapy Toolkit and Behaviour Toolkit.
- Close monitoring of interventions through provision mapping for all children that receive additional support in each class with vulnerable groups highlighted.
- Individual tracking documents for each intervention that clearly show the children's starting points, targets and the small steps progress that they are making.
- Additional assessment points and systems for Maths and Literacy
- Analysis of data against national data sets through Target Tracker and use of the Fischer Family Trust data analysis tool.

Admission arrangements for pupils with disabilities

On entry to Castledyke Primary school, the SENDCO will attend a pre transition meeting for any children who are identified to us as having disabilities or learning difficulties. This will also be attended by any professionals currently involved, the parents and, if they have attended another setting prior to transitioning to Castledyke, the Key worker will attend. During this meeting any additional arrangements are discussed and actioned in order to support a smooth transition. We work closely with the North Lincolnshire Physical Disabilities team and take any advice provided such as purchasing toilet frames, changing entrance and exit doors to avoid steps. If needed the SENDCO will create a Risk Assessment to ensure that all staff are aware how to manage and provide inclusivity for all children. (**Reference: Disability and Accessibility Plan Summer 2023-26**)

Consulting with children, young people and their parents/carers

Involving parents/carers and learners in the dialogue is central to our approach and we do this through:

Action/Event	Who's involved	Frequency
Parent/carer –teacher Interviews	Parent/Carer and Teacher	Twice yearly These provide opportunities to discuss progress and difficulties. For children with SEND these meetings may take longer than for other children and time is allocated for this.
Reports	Termly	Two termly reports and an end of Year report.
Education, Health and Care plan	Parent/Carer, Teacher, SENCO (additional agencies if necessary)	We believe that all reviews are extremely important for the child, their family and also Teacher and ensure that these are child centred and celebrate achievements as well as discussing next steps and future outcomes. The child's voice and own opinions are very important to us. Their views are collected through discussions, questionnaires and when a child cannot communicate this with us via observations and recording their individual learning preferences.
Individual Educational Plans	Teacher, child and Parent	Termly These reviews allow Teachers to reflect upon smaller steps of progress, setting bespoke achievable targets. Both parent and child voice and own opinions are very important to us.

Staff development (2024-25)

We are committed to developing the ongoing expertise of all our staff. The designated Special Needs Coordinator for our school is Mrs N. Roberts. She has a Postgraduate Certificate in Special Educational Needs, awarded by Bath Spa University in June 2020.

This year the following training has been completed:

- All teaching staff have had regular updates on child protection training, provided by the Head teacher.
- All staff have had updated safeguarding training, provided by the Safeguarding team.
- The SENCO has attended all termly network meetings and fed back relevant information into our everyday practice.
- In house training update on SEND needs within school
- Whole school training on Adaptive teaching.
- Coaching for staff to support children with additional needs from the Educational Psychologist
- In house training on writing effective IEP/SMART targets
- A TA has attended ELSA training
- Pastoral Manager attended Senior Mental Health training.
- Communication and Language in the Early Years
- PEG/Nutricia Infinity Pump training

Further staff training will be planned in accordance to need and availability for next year.

Staff deployment

A considerable amount of thought, planning and preparation goes into utilising our support staff to ensure that our children achieve the best outcomes, gain independence and are prepared for adulthood from the earliest possible age. We believe that all support staff are a vital tool in supporting both the class teacher and all children within the class. It is crucial that good relationships are formed between individual children and all staff so that they feel secure and valued.

The class teacher has the overall responsibility for providing targeted and effective support to children requiring extra help. These additional activities are provided by both the class teacher and support staff. This support takes place in the classroom, throughout the school day, working in small groups and on a one-to-one basis when necessary, whilst supporting the children to continue to develop both their social skills and independence. All of this information is discussed with the child's parents/carers and will take into account the needs and interests of the child.

Within our school we have a range of skills and strengths across the staff team. In order to fully support all children we work closely with a range of professionals from external agencies. These include:

- Educational Psychologists
- Speech and Language Therapists (SALT)
- Education preparation unit
- Autism Spectrum Education Team (ASET)
- Primary Behaviour Support
- Child & Adolescent Mental Health Service (CAMHS)
- Educational Welfare Officers (EWO)
- Physical Disability Team
- Occupational Therapy
- Physiotherapy
- School Nurse and Learning Disability Nurse
- St. Luke's Outreach Support
- SEN and Disability Information and Support Service (SENDIASS)

Finance

Our notional SEND Budget this year is £141,275.63 (2024-25) and the expenditure breakdown of that income is as follows:

- Staff CPD
- A range of intervention provision
- Additional TA support in classes
- Purchase of specialist resources for SEND children

A full list of our external partners who we work with can be found in our contribution to the Local Offer. Extending our school approach, we commission using an outcomes-based approach. This enables us to hold our partners and ourselves to account.

School Partnerships and Transitions

Our academic assessment for children and young people with special educational needs is moderated through our cluster of schools and neighbouring partners.

Complaints

Our complaints procedure is clearly detailed in our Complaints Policy available under the Policies Tab of our school website:

<http://fluencycontent2-schoolwebsite.netdna-ssl.com/FileCluster/CastledykeSchool/MainFolder/Policies/Policies-Page/Complaintsdocx.pdf>

Relevant school policies underpinning this SEND Information Report include:

- Riverview SEND policy
- Behaviour policy
- Medical needs audit/policy
- Anti-bullying policy
- Equal Opportunities policy
- Teaching and Learning policy
- Attendance policy
- Accessibility and Disability Plan

Legislative Acts taken into account when compiling this report include:

- Children & Families Act 2014
- Equality Act 2010
- Mental Capacity Act 2005

Date presented to/approved by Governing Body: July 2025
